ABOUT THE WORLD NCD FEDERATION

World NCD Federation is a professional association working for universal health care of major Noncommunicable diseases (NCDs). The objectives of the federation are to:

- To work for prevention and control of NCDs, mainly diabetes, cardiovascular diseases (CVDs), chronic respiratory diseases (CRDs), cancer, stroke, chronic kidney diseases (CKDs), and mental health issues at international level especially developing countries.
- To organize professional activities, meetings and trainings at global, regional and national level to promote public health approaches for prevention and control of chronic NCDs.
- To build partnership with like-minded professional associations and focus on evidence-based public health interventions, so that scarce resources are used optimally in developing countries.
- To work for capacity building for surveillance, monitoring, implementation of NCD prevention and control policies and programmes and evaluation at national, regional and international level.
- To promote research in noncommunicable diseases by capacity building and supporting national, regional and international multi-centric studies.

ABOUT THE CME

Theme of the CME: Cardiovascular Diseases: The major preventable killer

Objectives of the CME: The objectives of the CME are to:

- Provide an opportunity for doctors working in public and private sector, National NCD Programs, faculty, and PG students in Medical Colleges for better management of CVDs.
- Develop basic clinical skills required for management of CVDs.
- Discuss the health system issues for universal coverage of CVDs under the National Health Mission for effective implementation of NCD programs.

Key focus of sessions: There will be thematic sessions on cardiovascular diseases, coronary artery disease, hypertension and Panel discussion.

Participants: Medical Officers in the NCD cell at state/district/sub-district level, private practitioners, faculty, resident doctors working in related departments of Community Medicine, Medicine, Cardiology, Pulmonary Medicine, Radiology, Neurology and Nursing Colleges.. Limited seats are available, on first come, first serve basis.

Certificate: A certificate of participation will be issued at the end of course
