## ABOUT THE WORLD NCD FEDERATION

World NCD Federation is a professional association working for universal health care of major Noncommunicable diseases(NCDs). The objectives of the federation are to:

- To work for prevention and control of NCDs, mainly diabetes, cardiovascular diseases (CVDs), chronic respiratory diseases (CRDs), cancer, stroke, chronic kidney diseases (CKDs), and mental health issues at international level especially developing countries.
- To organize professional activities, meetings and trainings at global, regional and national level to promote public health approaches for prevention and control of chronic NCDs.
- To build partnership with like-minded professional associations and focus on evidence-based public health interventions, so that scarce resources are used optimally in developing countries.
- To work for capacity building for surveillance, monitoring, implementation of NCD prevention and control policies and programmes and evaluation at national, regional and international level.
- To promote research in noncommunicable diseases by capacity building and supporting national, regional and international multi-centric studies.

## ABOUT THE CME

**Theme of the CME:** Preventing lifestyle diseases: Ensuring development.

**Sub-theme:** Health System Strengthening for Universal Coverage of NCD Programs

**Objectives of the CME:** The objectives of the CME are to:

- Provide an opportunity for doctors working in public and private sector, faculty, PG students in Medical Colleges, and National NCD Programs for better management of major NCDs.
- Develop basic clinical skills required for management of NCDs
- Discuss the health system issues for universal coverage of NCDs under the National Health Mission for effective implementation of NCD programs.

**Key focus of sessions:** There will be five thematic sessions on diabetes, cardiovascular diseases, chronic respiratory diseases, cancer and stroke and panel discussion on National NCD Programs

**Participants:** Medical Officers in the NCD cell at state/district/sub-district level, private practitioners, faculty, resident doctors working in related departments of Community Medicine, Medicine, Cardiology, Pulmonary Medicine, Radiology, Neurology and Nursing Colleges. Limited seats are available, on first come, first serve basis.

**Certificate:** A certificate of participation will be issued at the end of course

**Venue:** NINE Auditorium, Postgraduate Institute of Medical Education and Research (PGIMER), Chandigarh-160012, India
