Organizing Chairperson: Prof. JS Thakur, Professor, Community
Medicine and SPH, PGIMER, Chandigarh
President World NCD Federation

Organizing Secretary: Prof Rakesh Kapoor, Prof & Unit Head
Radiotherapy & Oncology, PGIMER, Chandigarh
Secretary, World NCD Federation

About the Federation

World NCD Federation (WNF) is a Professional Association, working for Global Health Agenda for Universal Health care for Non-communicable diseases (NCDs) which is accessible and acceptable to all and at a cost, the developed and developing countries can afford to maintain and sustain population wide and individual clinical NCD interventions.

It was launched in Chandigarh, in 2015 by few innovative Faculty members working at prestigious Post Graduate Institute of Medical Education and Research, to focus on Public Health approaches for prevention, control and management of noncommunicable diseases globally.

Chandigarh NCD Registry

The Chandigarh NCD Registry is an initiative of World NCD Federation with PGIMER Chandigarh and other health departments, Chandigarh Administration.

It is one of its kind of Integrated Non communicable disease registry in South East Asia. Chandigarh NCD Registry is set up with a vision to establish baseline data to assess the burden of major NCD's and its prevention and control

This population based registry was launched in July 2018 covering all major NCDs including Stroke, Cancer, Young Diabetes, CVDs, Aplastic Anemia, RF/RHD and CKD.

Objectives of the CME

1. To understand the concept and role of disease registries in prevention and control of NCDs.
2. To document the evidence and conduct the scientific sessions on operational aspects and challenges in running Noncommunicable disease registries in LMICs.
3. To discuss role of disease registries for prevention and control of NCDs and achieving NCD targets and indicators.

Intended Audience

This CME is likely to be attended by policy makers, program managers, doctors representatives of research organizations, healthcare professionals and research scholars in both health & public health academia.

Expected Outcomes

1. Role of the of disease registries in prevention and control of NCDs.
2. Release of report of Chandigarh NCD registry and discussion of the challenges in running Noncommunicable disease registries in LMICs.
3. Documentation of best practices of the disease registries for achieving NCD targets and Indicators as CME monograph.
