ABOUT THE WORLD NCD FEDERATION

World NCD Federation is a professional association working for universal health care of major Non communicable diseases(NCDs). The objectives of the federation are to:

- To work for prevention and control of NCDs, mainly diabetes, cardiovascular diseases (CVDs), chronic respiratory diseases (CRDs), cancer, stroke, chronic kidney diseases (CKDs), and mental health issues at international level especially developing countries.
- To organize professional activities, meetings and trainings at global, regional and national level to promote public health approaches for prevention and control of chronic NCDs.
- To build partnership with like-minded professional associations and focus on evidence-based public health interventions, so that scarce resources are used optimally in developing countries.
- To work for capacity building for surveillance, monitoring, implementation of NCD prevention and control policies and programmes and evaluation at national, regional and international level.
- To promote research in noncommunicable diseases by capacity building and supporting national, regional and international multi-centric studies.

ABOUT THE MEETING

Theme of the Meeting: Promoting Evidence Based NCD Guidelines

Objectives of the Meeting:

1. To compile, consolidate and adapt evidence based guidelines on "Prevention, Surveillance and Management of non-communicable diseases in primary and secondary health-care settings" in order to provide useful reference material to the medical fraternity and program managers at National and State level in LMICs.
2. To celebrate Third Foundation Day of World NCD Federationon 7th March.

Key focus of sessions: There will be interactive sessions on prevention, surveillance and management of non-communicable diseases viz., cardiovascular diseases, stroke, cancers, diabetes, CKD, chronic respiratory diseases and mental health disorders.

Participants: Experts working in NCDs at national and international level, Medical Officers in the NCD cell at state/district/sub-district level.

Certificate: A certificate will be issued for participation
